

QUALITY AND SAFETY POLICY

We are committed to continually improving all processes and products utilizing the ISO 9001:2015 and ISO/TS 22163:2017 standards as basis to uplift **M/s. ANOVI ENGINEERING PVT. LTD.** as a leader in the business of manufacturing of engineering components and assemblies by fabrication, machining and other metalworking operations, while assuring on-time delivery and lower cost.

We strive to be a responsible entity, ensuring a safe work environment.

We are committed to a sustainable business model with continual improvement performance by:

- Providing our customers with superior quality products and competitive pricing.

- Enhancing satisfaction of customer and stake holder by process approach and risk base thinking.

Establishing processes for prevention of failure and reduction in defects throughout the supply chain.

- Taking proactive measures to provide a safe Product and working environment free from accidents, injuries, and ill health.

Effective implementation of Quality Management System across all product sectors including the Rail sector.

Improving the quality of workforce.

- Complying with all applicable statutory and regulatory requirements.

- Develop a product development and augmentation strategy based on analysis of customer need & expectations leading to zero defects and excellent ambience.

- Satisfying customer expectations.
